EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 13: The apparatus of claim [12] 9 further comprising one or more fans positioned so as to direct airflow onto said heat sink of each of said pair of UV lamps.

Allowable Subject Matter

2. Claims 1, 3-6, 8-9, 11, 13-15 are allowed.
3. The following is an examiner's statement of reasons for allowance: the prior art searched and cited failed to teach or fairly suggest an apparatus for irradiation of a fluid with UV light having a vertical tubular body formed of a material which is UV-permeable, a U-shaped radiation source for producing UV light arranged outside relative to said tubular body to subject said fluid chamber to the UV light, said radiation source including an upper end and a lower end, with filaments positioned in said upper end; and an active cooling feature for cooling the radiation

source in contact with said lower end of said radiation source in combination with the remaining elements of claims 1 and 9. The remaining claims are allowable because of their dependencies upon claims 1 and 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
